TAILOR-MADE DOORS	We are able to provide you with special sized-doors. Maximum dimensions: 130cm x 268cm x 80mm
-------------------	---

ADVANTAGES OF OUR "BAMBOO GUADUA WOOD" DOORS	
100% SOLID "BAMBOO GUADUA WOOD" DOORS . Naturally shielded.	
SAFE DOORS in fire situations: they slow down flame propagation and generate minimum smoke.	
DOORS finished with high resistance polyurethane lacquers. Options: matte, semi-matte, and glossy.	
All of our doors come with a complete frame and four (4) anti-leaver hinges.	
Our doors are immunized with non-polluting methods and are kiln dried (chamber dried).	
Sustainable doors with low carbon footprint.	
Our doors come with drillings for conventional locks. (Available at no cost). Special perforations for non-conventional locks have an additional cost.	
NOTE 1 : FOB price is calculated for at least one whole container and placed in the Buenaventura port (Colombia)
